

XVII Zimányi-COST School on Heavy Ion Physics

<http://zimanyischool.kfki.hu/17/>

Budapest, December 4-8 2017

Wigner Research Center of the HAS

Department of Atomic Physics, Eötvös University

Topics:

- Hydrodynamics in heavy ion collisions
- Flow measurements
- Femtoscopy, correlations and fluctuations
- Lattice QCD
- Recent results from RHIC
- Recent results from LHC
- Recent results from other facilities (FAIR, J-PARC)
- Diffraction

Local Organizers:

M. Csanád (chair) (Eötvös University)
P. Kovács (co-chair) (Wigner RCP)
M. I. Nagy (Eötvös University)
S. Lökös (Eötvös University)
D. Kincses (Eötvös University)
Gy. Wolf (Wigner RCP)
R. Vértesi (Wigner RCP)
P. Ván (Wigner RCP)
N. Szathmári (secretary) (Wigner RCP)

Advisory Committee:

T. Csörgő (Wigner RCP, chair)
L. Csernai (Bergen University)
T. Biró (Wigner RCP)
T. Hirano (Sophia University)
P. Lévai (Wigner RCP)
M. J. Tannenbaum (BNL)
R. A. Lacey (Stony Brook University)
T. Lappi (University of Jyväskylä)
P. Petreczky (BNL)
C. Sasaki (University of Wroclaw)
